

2019 Boren Scholar and Fellow Post-Program Checklist

All Boren Scholars and Fellows are required to fulfill certain post-program requirements upon completion of their overseas program. Completion of these requirements are due within 30 days of the overseas program end date. Failure to complete the post-program requirements may result in the final disbursement being forfeited.

Post-Program Checklist

Final Program Report*

Complete Post-Program Language Test

- To complete your post-program OPI test, visit the [LTI website](#) to schedule your test. Use the following login information when on the website:
 - Username: iie
 - Password: fellow
- LTI can conduct language tests by cell phone and Skype phone, although landline connections are still recommended to ensure quality service. LTI will also report your test results to IIE directly approximately two weeks after the test is administered.
- If you are an **AFLI/SAFLI/IFLI** participant who is only overseas for the fall semester, you do not need to take the OPI test again. You will be asked to take an OPI test by your program administrator prior to departing your host country and can use that test score to meet this requirement.
- If you are an **AFLI/SAFLI/IFLI** participant who extended your stay for the spring semester, you are still required to take the post-program language test with LTI after your program ends.

Verify your NSEPnet Account Information

- As a Boren Scholar or Fellow, you have agreed to fulfill a service requirement with the federal government. As part of this opportunity, you are required to login to [NSEPnet](#), an on-line resume database, to verify your personal information once you have returned to the U.S. and your account has been created by IIE.
- NSEPnet accounts are created in batches by program end dates and you will be notified by IIE once you have been granted access. An automated email with your login credentials will be sent to your primary email on file. This should be

the same email address you use to login to the portal.

- If you are not graduating immediately after the award period, you must post and activate your resume on NSEPnet a year before you graduate.
- For those graduating within a year of completing your Boren program, please activate your resume on NSEPnet as soon as you return to the U.S. but not before. **NSEPnet should not be accessed while still overseas.**
- For further information on the service requirement, see The NSEP Service Agreement for Scholarship and Fellowship Awards and the NSEP Terms and Conditions.
- Upon your return, should you have questions regarding NSEPnet or your service requirement, email nsep@nsep.gov. A dedicated NSEP Service Team member will be able to assist you with your questions. **NSEP should not be contacted while overseas.**

All of the above requirements are due within 30 days of your overseas program end date. Failure to complete these requirements in a timely manner may result in the forfeiture of your final disbursement.

Additional NSEPnet Instructions

1. **To Verify Personal Information** - You are required to verify your personal information (including: address, phone, and e-mail).
 - Click "Resume Builder" tab.
